# 2020 Expo Booth Rates

Volleyball Canada's youth teams compete and train all season in their respective provinces with their eyes set on competing at National Championships. During the month of May 2020 the youngest division (14U) will compete in three select cities across the country; Ottawa, Abbotsford, Halifax.

We invite companies that see these events as an opportunity to engage with young athletes, sample/sell products, recruit future post secondary students, and reach families to consider securing a vendor booth at a National Championships in a city that makes sense for you.
