

Nationals Participation Survey

Volleyball Canada will be asking teams to submit their interest on attending Nationals prior to the official registration period. This information will be gathered for each age class & gender via a survey to help determine if changes need to be made to anticipated numbers for each tournament.

All teams are strongly encouraged to submit their interest if they wish to attend Nationals as it will improve the registration process for all teams.

****THIS SUBMISSION OF INTEREST DOES NOT GUARANTEE REGISTRATION INTO NATIONALS****

How VC will collect this information?

A survey will be shared with the Nationals mailing list and will be posted on the website. Through this survey, interested teams can input their club name then select their age category to submit their interest to attend Nationals. Teams will have from **November 15th to December 12th** to submit their interest.

What will VC do with the info?

VC will review the number of interested teams per age category and compare with the anticipated tournament capacity. VC will consider adjusting opening numbers and court allocations to better suit the demand. Please note that VC will not be able to add additional venues or go over current venue capacity. Consideration may be used for altering the competition schedule due to COVID-19 implications.

These changes should improve the registration experience for all teams as it will better reflect the actual interest in attending. Any changes will be communicated to teams.

As mentioned above, the submission of interest does not act as a pre-registration. All teams must register to attend Nationals.

VC will take into consideration that all teams may not submit interest and the information gathered from the process may not fully reflect the total teams interested in attending Nationals.
