

# New schedule draw option for VC National Championships

The purpose of this schedule is to allow for more meaningful competition and to allow all participating teams the opportunity to complete the Nationals tournament with a rank higher than their initial seed. This will be achieved by removing the divisions of teams (32, 40, 48, etc) and having teams compete in groups of 16. Movement between the groups will allow teams to play closer to their own caliber throughout the entire tournament and the opportunity for lower seeded teams to move up in the rankings.

For example, the 33<sup>rd</sup> seed can now finish as high as 17<sup>th</sup> compared to the current schedule where the 33<sup>rd</sup> seed could finish 33<sup>rd</sup> at best (top of Div 2).

## General Notes:

- Teams will start the tournament in groups of 16 for day 1. Day 2 will have groups of 8 and Day 3 will be played in tiers of 8
- More balanced competition on Day 1 for all teams
- The lowest seed the 1<sup>st</sup> ranked team plays would be the 16<sup>th</sup> seed
- Teams 33-48 have the opportunity to finish in 17<sup>th</sup> place
- Top 32 teams still have chance at National Championship title
- On day 3, tier 1 teams will compete for the National Championship title
- Teams will have the opportunity to move up or down in rankings following both Day 1 and Day 2
- Only Tier 1 teams will play in a bronze medal match
- Divisions will not be used in this schedule

This schedule will be piloted at the 14U and 16U age category at the 2022 Nationals. A survey will be distributed to all teams to collect feedback and VC will determine whether or not changes are needed or if the schedule will be expanded to all age categories for the 2023 Nationals.
