Dr. Ben Raymond

Dr. Raymond is a quantitative research scientist and software developer and has co-authored over 100 scientific publications and 40 software packages. Together with Adrien he is the co-founder of the openvolley project, which aims to make advanced volleyball analytics more accessible to the volleyball community with open-source software and other resources. Ben is also a founding partner of Science Untangled, which provides volleyball analytics services to amateur, professional, and national teams worldwide.

Dr. Adrien Ickowicz

Dr. Ickowicz is a senior research statistician who has co-authored more than 50 research articles and reports in theoretical, computational, and applied statistics. He is a co-founder of the openvolley project with Ben, and a partner in Science Untangled. Adrien is also a volunteer experienced coach at amateur level and spends a lot of time on the court to train the next generation of Tasmanian volleyball players.
