### \*For 2022 Club Nationals, 18U Age Category ONLY:

A team roster for the 18U category can include 2 athletes born from Jan 1-August 31, 2003, with the following restriction:

- Athletes are NOT permitted to be part of any USport, CCAA or other Post-Secondary volleyball program for the current season (Sept 2021-May 2022)
- **Definition of Post-Secondary:** Part of a Post-Secondary Volleyball program is defined as training in whole or part with team members of the post-secondary institution that they are attending. This would include any athlete regardless of their post-secondary eligibility, including those commonly referred to as red-shirts. This does not include intramural programs or club programs within a post-secondary institute. If an athlete is attending a post-secondary institution, verification shall be confirmed by the Head Coach of the program. CEGEP Programs are not included in this definition.
- Athletes within the appropriate age category (16 month window) are not restricted.

### Exemptions:

The Head Coach/Team Manager may request [an exemption](#) for an athlete born prior to the 16 month window to play in a specific age group. Exemptions may be considered under extraordinary circumstances, initial requests must go through the PTA prior to submission to Volleyball Canada.

### Guiding Principles:

Long Term Development research demonstrates the flaws of placing athletes into their birth year for participation in sports. In short, the large physical discrepancies that can occur between youth within the same birth year create significant disadvantages for late developing male athletes and to a lesser degree, early developing females. Therefore, providing a range of months (16) within a competitive division gives athletes greater flexibility to choose a level that best suits their needs. There are athletes born from Sept-Dec who will benefit from choosing a younger division, while other athletes who play at an advanced level would benefit from the challenge of playing up an age category.

Athletes, parents and coaches should consider the short term and long term benefits of playing up or down an age category. Volleyball Canada recommends that if playing up provides the needed challenge for improvement, and there exists no significant social/emotional drawbacks in the older age category, athletes should play up. It should be noted that each club may have their own policies regarding playing up/playing down.
